“She suddenly realized that this was not going to be a good day at her tea shop.”

“One-of-a-kind” Sculpture

An A.R.T-bot sculpture: Artfully Recycled Treasures

Recycled parts and some odd findings!

12” Tall x 12” Deep x 9” Wide

“Miss Thea thought she was totally prepared for a great day at her “Tiny Tea Shoppe”. Suddenly, her entire career passed before her eyes!”

This unique piece is constructed from an old tea pot, antique tea cups and saucers found at a junk store, odds and ends for the ornate lid. The old stove knob I found from my husbands maintenance tool box. The knob turns to Wweak tea or to Strong. The tea ball contains “Ti kuan yi ” loose tea leaves. Miss Thea's old pearl necklace and sparkly beads are from my collection of costume jewelry. Miss Thea's earrings are very old ...as is Miss Thea. Also, little crumpets, petit fours, and other desserts, are made from kids “puzzle” erasers! Peek under the silver tea tray. Old drawer pulls and knobs make up the feet!

Enjoy showing off this fun sculpture in your home collection.
