

# ART-BOT CERTIFICATE OF AUTHENTICITY

This is to certify that this "ART-bot" was created by Carla Ann Erickson-Moss at Black Dog Design Studio  
in the Year \_\_\_\_\_.

Congratulations. You are now the very lucky owner of a wonderful sculpture called an "ART-bot".  
This means "A"-Artfully "R"-Recreated "T"-Treasures. Unlike those other OVER-RATED robots, this  
very SPECIAL ART-bot will NOT pester you to constantly flip a switch to make it move, chattering  
with annoying noises, and turning squeaky gears trying to impress you.

This wonderfully, brilliant piece will simply be a beautiful part of your household, part of your daily  
routine, quietly observing you as you go through your life.

Keep this clean by simply using a small paint brush and dusting occasionally. They like that. It may  
tickle and you may hear a little giggle now and then if you're very, very lucky.

This "one-of-a-kind" sculpture will last a "life-time" and can be an important part of your art collection. There will  
never be another one like this one.

Live HAPPY, now, and go forward to appreciate what others call "junk".
